

# Vampire-compatible CompactFlash adapters and cards

This page contains a list of CompactFlash (CF) adapters and cards that are known to be working well on Vampire boards that have an IDE interface.

## Adapters

Most CF-to-IDE adapters should work fine. Here are some specific adapters that were thoroughly tested:

Brand	Product	Remarks
AmigaKit	<a href="#">AmigaKit CF-IDE adapter</a>	
Arananet	<a href="#">Panther Mini CF-IDE adapter</a>	
Arananet	<a href="#">Panther Mini CF-IDE adapter for Vampire 1200</a>	
Retro Ready	<a href="#">CF-IDE internal adapter</a>	

## Cards

Most CF cards should work fine. Here are some specific cards that were thoroughly tested:

Product ID	Product Name	Remarks
SDCFHS-004G-G46	SanDisk CF 4GB	
SDCFHS-016G-G46	SanDisk CF 16GB	
SDCFHS-032G-G46	SanDisk CF 32GB Ultra	
SDCFXPS-032G-X46	SanDisk CF 32GB Extreme Pro	
TS4GCF133	Transcend CF 4GB	

Under AmigaOS 3.x, you can use `SYS:Tools/Mounter` to obtain the product ID.
